

TOP SECRET

Team Fear: Questions

1. Who/what are is "the Company?"
2. What do they want? (A: us dead?)
3. What about the other teams?
 - a. Are they experiencing the same threats? Side effects? Where are they? Were they discharged? Killed?
4. Who funded the program? (follow the \$\$)
 - a. TF2: Who is behind the experiments?
5. Who wants Team Fear gone and why?
(A: long damn list)
6. Medical personnel and researchers were involved. Who are they? Who did the R&D? Where are they? (are they close to El Paso??)
TF2 → started w/ Debi at University lab
7. How long does the fearlessness last? What about paranoia? Anger?

ADDED: What is in the pills they gave us? TF2:

TOP SECRET

What did they pump through our veins to make us fearless? (see next page) Is it reversible? Are we unstable?

8. What triggers the episodes like the one Ryder experienced? TF2: What did they dose Ryder, Gault, and Madigan with? Is the formula different than the original? Why? How? **Too damn many questions, light on answers.**

9. What are the odds that all 12 men on ^{Team}Echo went psycho unless they were pushed, selected, or damaged that way?

10. What do we (Team Fear) have in common?

Craft's Answer: loyalty: "I'd die for you fuckers."

Lauren's Answer: Military trinity: God, country, family.

★ **Fowler's long-assed answer:** Dedication to the mission. Core beliefs.

TOP SECRET

Q: If we were all chosen for our patriotism, is it possible that members of Team Echo were all chosen for their moral flexibility? And, to extrapolate, does that mean each team (Alpha-Bravo-Charlie-Delta-Echo-Fear) were selected for different desirable attributes?

Meeting @ The Manor:

1. Did I see captain Johnson on the university campus? If so, too damn much of a coincidence.
 - a. Where the hell is Johnson?
 - b. There has to be a link between the program (Company?) and the university.

Proven through Debi/Barry
 - c. Is the university where the fearless experiments started? Yes
 - d. If El Paso is where the quacks started, that explains why they

TOP SECRET

moved the teams to Ft. Bliss.

i. Research lab → grants → paper trail (\$\$) need inside help

2. What is The Manor?

a. Who owns it? Fowler & his mother

b. Is it safe for the women? As safe as we can make it. Have surveillance equipment, security, hidden...

c. Offense / defense? We can't hideout forever.

d. How do we get women out if all hell breaks loose? EXIT STRATEGY:

Tunnels → 2 vehicles on opposite end of tunnel for escape/evasion

3. We need a file on all members of Team Echo. They're not working alone. Who helps? DOD? Funding??

4. Other teams: Stills knows Delta 3

a. Car accidents

Did ECHO cause Lauren's accident?

b. Drunk drivers

TOP SECRET

- c. Heart attack (WTF?)
- d. PULL medical records (Craft)

5. Security (existing)

- a. Perimeter guards, video surveillance, keypad locks, alerts go to Fowler/Janet.

6. Assignments:

- a. Craft (INTEL) find Cpt. Johnson
 - i. All service and med. Records
 - ii. Who funded?
 - iii. Relay science to Rose/Debi

- b. Stills: personnel:

- i. Other teams? Any allies?
 - ii. Dossiers, pictures, locations.
 - iii. Anyone have better intel?
 - iv. Echo's strengths/weaknesses
- c. Rose: follow the drugs/science
- d. Fowler security
- e. Ryder: big picture, timeline

~~IS DEBI THE EVIL WE'RE LOOKING FOR?~~

TOP SECRET

Post explosion debrief:

More fucking questions:

1. ~~Join ECHO or die?~~ *Fuck that.*
2. ECHO chosen for predisposition for crazy.
Great.
3. FEAR chosen for loyalty/patriotism.

Other teams?

4. Allyson has syringe used on me.
(OPSEC fail)

~~a. NMR machine next week → answers~~

Lab toast. What's plan B?

5. re: what we know about the protocol, drugs, accelerant, etc.

a. Debi originated DV1028

Makes her a target.

b. Little green pills (Barry's version):

TOP SECRET

- c. DV1028 + (possibly) steroids + (possibly) amphetamines (see betting book) → is ECHO constantly on a version of the protocol w/ amphetamines.
- d. Trigger version: (from the water bottle given to Ryder at the University):
DV1028+steroids+amphetamines
Use BETA BLOCKER to counter/then detox
- e. Steroids/amphetamines are educated guess until we get a lab breakdown. Steroids for greater risk taking, higher aggression, increased strength and performance.
- f. **KEY = Barry's records**
